

Law360 Ranks Eimer Stahl Top 10 in the Country for Female Partners in 2018

May 31, 2018

Eimer Stahl was recognized as the ninth best law firm for female partners in the country, earning a spot on *Law360's* 2018 "Ceiling Smashers" list. Over 300 firms are ranked based on their percentage of U.S. equity partners that identify as female. While *Law360* saw limited progress for female attorneys in a male-dominated profession, Eimer Stahl has continued to grow and advance. As *Law360* notes, women make up over one in four equity partners and over 40 percent of the entire lawyer workforce at the firms on this list.

This is not the first time Eimer Stahl has received praise for its progressive number of female equity partners. The firm was also recognized in *Law360's* 2016 "Ceiling Smashers" list.
